2 & 3 BHK
Luxurious Homes @ Dhayari

SUCCESSFULLY COMPLETED
PHASE : 1 & 2

A EUPHORIC EXPERIENCE, COMING YOUR WAY

Why settle for tiny apartments and uninspiring amenities when you can be a part of lavish homes in the heart of Pune. Widely spread across the very beautiful foothills of Dhayari, SAI AVISHKAR comes together to create a marvel in every sense. It's success and trust is apparent as we have successfully sold the FIRST and the SECOND phases, allowing us to present to you with our THIRD phase. This has been designed to create more serene and smart complexes with our eighty four 1, 2 & 3 BHK homes. We aim to make the THIRD phase of SAI AVISHKAR an ideal abode for emerging families.

PROJECT HIGHLIGHTS

- **Vaastu Homes**
When you have maximum peace, you start to enjoy life better. And that's why we have designed our homes as per Vaastu.
- **Green Landscapes**
Welcome every day with great green landscapes and a beautiful city line.
- **Easy Accessibility**
Sinhagad Road | Kothrud | Nanded City
Mumbai-Bengaluru Highway | Hinjewadi
- **SWaCH Waste Management System**
We believe in the notion 'a good cause goes a long way' and have partnered with NGO SWaCH, a solution to waste management that does not consume energy.

Power Backup for Lifts & Common Areas

Provision for EV charging

Solar Water Heater

Conceptual images

There is nothing like unparalleled comfort and beautiful views. Sai Avishkar brings uncompromised luxury with sustainability. With the help of using eco-friendly materials, we wanted to design a space that feels like home even before you have moved in.

Fly Ash is a mix that replaces Portland Cement. This is an environmentally-friendly concrete in its hardened state. It shows improved performance with greater strength, decreased permeability, increased durability and reduces the heat of hydration.

Cement Boards for Door Frames are ideal because it makes the door frames completely waterproof, minimizing future damages. Wooden door frames are not suitable because of bad wood quality and the issue of expansion & contraction.

Conceptual images

SPECIFICATIONS

■ Structure

RCC frame structure and earthquake resistant

■ Entrance Lobby

Grand and secured entrance lobby with waiting lounge

Letter box and door name plate

■ CCTV

There are a lot of cameras all over the project. Direct access & viewing is available in the watchman's cabin and made available to every customer on their phone

STATISTICS

About the developers

Sai Avishkar is a partnership between three real estate developers - Suyog Group, Anjani Buildconn LLP & Avishkar Realty. They have come together to create homes that go beyond brick and mortar. Coming together, they bring their core values, beliefs and ideas to build a space that provides the latest technology, amenities and infrastructure, elevating the Standard of Living in Dhayari. Over the years, their real-estate projects have become crowd-pleasing landmarks, developing well-thought homes for those who want to build their own little world.

TESTIMONIALS OF PROUD HOME OWNERS

When I moved in, I got a good feeling. I felt that this is the place where you actually want to stay, where you would love to stay.

Mr. Vinod Hiremath

When you enter Sai Avishkar society, you feel as relaxed as you are at home.

Mr. Chandrashekhar Kadu

Very good project with all amenities, good quality, open space with more greenery they had planned to do 200 trees plantation for future environment as they say, Sai Avishkar - live with nature, it's true it really feels like this.

Mrs. Geeta Jambhale

Great experience also good quality with good infrastructure, had given more space for kids to play and sit out area for senior citizen.

Mr. Vinod Choukhande
